### 213.000 Tooth Numbering

Arkansas Medicaid uses an enumeration system to identify regular and supernumerary teeth in children and adults.

- A. The system was devised by the American Dental Association in compliance with the Health Insurance Portability and Accountability Act (HIPAA).
- B. It includes a numbering system to identify permanent and permanent supernumerary teeth and an alpha arrangement to identify both regular and deciduous supernumerary teeth.
  - 1. Valid values for regular permanent teeth include the numbers 1 through 32.
  - 2. Numbers 51 through 82 indicate supernumerary permanent teeth.
  - 3. Alpha letters A through T indicate regular deciduous teeth.
  - 4. AS through TS indicate supernumerary deciduous teeth.

View or print a description of the tooth numbering method to be used for all Medicaid claims.

### 214.000 Consultations

4-1-05

4-1-05

A consultation includes services provided by an oral surgeon whose opinion or advice is requested by an oral surgeon or other appropriate source for the further evaluation and/or management of a specific problem. When the consulting oral surgeon assumes responsibility for the continuing care of the patient, any subsequent service provided by him or her is not a consultative service.

Consultations are limited to two per recipient per year in an oral surgeon's or physician's office. This yearly limit is based on the state's fiscal year, July 1 through June 30. Extensions of this benefit are available to recipients under the age of 21 when the consultation is medically necessary.

These procedures must be billed on the American Dental Association (ADA) claim form by oral surgeons enrolled in the Medicaid Program when the procedure is provided to an eligible Medicaid recipient and is medically necessary.

### 216.100 Complete Series Radiographs

4-1-05

A complete series of intraoral radiographs is allowable within a single state fiscal year (SFY) of July 1 through June 30 only once every five years, except under unusual circumstances (e.g., traumatic accident).

- A. A complete series must include 10 to 18 intraoral films, including bitewings or a panoramic film including bitewings. Two bitewings are covered when a panoramic X-ray is taken on the same date.
- B. Only one complete series is covered. A complete series may be:
  - 1. Intraoral, including bitewings, or
  - 2. Panoramic, including bitewings.
- C. When an emergency extraction is done on the day a complete series is taken, no additional X-rays will be covered.
- D. Prior authorization (PA) is required for panoramic radiographs of children under age six.
- E. When referrals are made, the patient's X-rays must be sent to the specialist.
- F. For instructions when billing for a complete series, see section 262.400.

216.300 Intraoral Film 4-1-05

When submitting a claim for an intraoral single film, indicate the middle tooth number. Procedure code D0220 must be used for the first film and procedure code D0230 for each additional single film. Medicaid will only cover the complete series or the submitted group of individual X-rays. X-rays are to be mounted, marked R and L, labeled with the dentist's provider number and the recipient identification number and stapled to the back of the claim form, as noted in section 216.000.

PROPOSED

223.000 Removable Prosthetic Services (Full and Partial Dentures, Including Repairs)

Full and acrylic partial dentures are allowable for patients under age 21. Full dentures or acrylic partial dentures may be approved for use by individuals under age 21 instead of fixed bridges. A complete series of X-rays and a complete treatment plan, including tooth numbers to be replaced by full or partial dentures, must be submitted with requests for full or acrylic partial dentures. All dentures, either full or acrylic partials, require prior authorization.

4-1-05

Repairs of dentures are allowable with a history and date of original insertion and prior authorization for eligible recipients under age 21. See section 262.100 for applicable procedure codes.

# PROPOSED

### 226.000 Orthodontics 4-1-05

Orthodontic treatment is available for eligible recipients under age 21 with prior authorization. Orthodontic treatment is approved on a very selective basis when a handicapping malocclusion is affecting the patient's physical and/or psychological health. The dental provider is responsible for evaluating the attitude of the patient and the parent/guardian toward the treatment and their ability and/or willingness to follow instructions and meet appointments promptly. This evaluation should precede taking orthodontic records. Please note: ARKids First-B does not cover orthodontic treatment.

All orthodontic treatment is classified as either minor treatment for tooth guidance or as comprehensive treatment. Minor treatment for tooth guidance will be allowed with prior authorization when necessary to correct functional problems.

All orthodontic treatment, including functional appliances, must be requested on the ADA claim form. The ADA claim form must be accompanied by the Request for Orthodontic Treatment form (form DMS-32-0). View or print form DMS-32-0.

The maximum age of eligibility for full-banded 24-month orthodontic treatment is through age 20. Functional-banded orthopedic appliances require the same diagnostic records as full-banded orthodontics. The minimum total score on a Request for Orthodontic Treatment for consideration of comprehensive orthodontic treatment is 26. This value will be rescored by a Medicaid dental consultant based on the casts and radiographs provided with the request.

Diagnostic casts (dental molds), cephalometric film, photos, a complete series of X-rays and any information not evident on diagnostic materials must be submitted for review with the ADA claim form. Dental molds must be submitted along with the treatment plan. The dental molds must not be submitted separately and the provider's and the recipient's full names must be clearly inscribed on the upper and lower casts.

If oral surgery is necessary in addition to orthodontic treatment, the oral surgeon must submit his or her treatment plan with the orthodontic treatment plan.

When orthodontic treatment is approved, a procedure code for appliance insertion will be issued. This procedure code includes payment for the appliance, the diagnostic records, casts (dental molds and X-rays) and the post-treatment retainer. This code and the prior authorization control number will be sent to the provider on the ADA form. The date the treatment is to be completed will also be indicated. No reimbursement for treatment beyond that date will be made. The Authorization for Payment for Services Provided form (form MAP-8) and a copy of the treatment plan must be kept by the provider in the patient's file. View or print MAP-8 form and instructions.

When treatment is denied or for any reason is not performed, the provider is allowed to submit a claim for the orthodontic records. This includes orthodontic consultation, cephalometric film, diagnostic casts (dental molds), photos and a complete series or panoramic X-ray if taken by the dentist. This claim must be approved by the Medicaid dental consultant.

All claims for orthodontic treatment are to be submitted on the ADA claim form according to directions detailed in section 262.300 of this manual. Claims must be submitted within 12 months from the date of service.

When a patient is uncooperative for any reason, except for the situation noted in the following paragraph, termination of the treatment will be left to the discretion of the provider. A report should be sent to the Division of Medical Services, Dental Care Unit, with a pro-rated refund to Arkansas Medicaid for the balance of the uncompleted treatment plan. View or print DMS Dental Care Unit contact information.

When an orthodontic patient moves within the state after initial treatment has begun, the original provider should reimburse the second provider directly for the pro-rated fees remaining. When the second provider submits his or her treatment plan to continue the orthodontic patient's

treatment, the provider must submit the orthodontic records of treatment performed by the original provider.

PROPOSED

229.000 Adult Services 4-1-05

In general, Arkansas Medicaid does not cover dental treatment for adults who are 21 years of age and older. An exception to this general rule is dental treatment that is medically necessary.

Medically necessary dental treatment is defined as dental care that will stabilize a life-threatening medical condition, or dental care that, if not done, could result in death.

All medically necessary dental care must be pre-approved by medical and dental consultants at the Division of Medical Services. All adult dental care services may only be submitted on paper claims.

The review process must include:

- A. The identification of a life-threatening medical problem affected by oral health. Some examples of such conditions are:
  - 1. HIV/AIDS patients with infections the immune system is unable to fight
  - 2. Transplant patients with infected teeth or gums
  - 3. Cancer radiation treatments to the head/neck/jaw
- B. The PCP Referral Form (DMS-2610) must be completed by the primary care physician detailing the medical condition and the effects the oral health problems have on the overall health of the recipient. View or print form DMS-2610.
- C. Upon completion, the PCP Referral Form (DMS-2610) must be submitted to the Division of Medical Services by the dental professional who will be providing the services. Any supporting information, including X-rays, to further substantiate medically necessary treatment must be submitted.
- D. Upon receipt, Medicaid medical and dental consultants will evaluate the information submitted and authorize the dental treatment, if any, that Medicaid will reimburse. After the review process is completed, the panel will return any X-rays along with recommendations to the requesting dental professional.
- E. The office of the dental professional will notify the recipient regarding the decision of the Medicaid consultants, and if appropriate, arrange to begin dental care.

The medical/dental consultants will only approve dental treatment for adults who strictly meet the medical necessity criteria.

Under no circumstance will the Dental Program purchase dentures or any other similar prosthetic device for individuals age 21 and over. Oral surgery, such as reconstructive surgery for cosmetic purposes, is not a covered service, nor are implants a covered service.

260.000	BILLING PROCEDURES	4-1-05

### 261.000 Introduction to Billing

4-1-05

Dental providers must use the American Dental Association (ADA) form to bill the Arkansas Medicaid Program on paper for services provided to eligible Medicaid recipients. Each claim may contain charges for only one recipient.

Section III of this manual contains information about Provider Electronic Solutions (PES) and other available options for electronic claim submission.

## 262.000 ADA Billing Procedures 4-1-05 ADA Procedure Codes 4-1-05

The following ADA procedure codes are covered by the Arkansas Medicaid Program. These codes are payable for individuals under the age of 21. The codes are non-payable for individuals age 21 and over unless a life-threatening medical necessity exists.

Beside each code is a reference chart that indicates if X-rays are required, if prior authorization (PA) is required and the age group(s) for which the procedure is covered.

### 262.400 Special Billing Procedures for ADA Claim Form

4-1-05

- A. Each procedure must be shown on a separate line, such as:
  - 1. Extractions
  - 2. Upper partials
  - 3. Lower partials
  - 4. Upper denture relines
  - 5. Lower denture relines
- B. When a complete intraoral series is made, the dentist must use procedure code D0210 rather than indicating each intraoral film on a separate line.
- C. When submitting a claim for an intraoral single film, indicate the middle tooth number. Procedure code D0220 must be used for the first film and procedure code D0230 for each additional single film. Medicaid will only cover the complete series or the submitted group of individual X-rays. X-rays are to be mounted, marked R and L, labeled with the dentist's provider number and the recipient identification number and stapled to the back of the claim form.
- D. Post-operative X-rays must accompany all claims with root canals. The claim and X-rays should be sent to the Arkansas Division of Medical Services Dental Care Unit. View or print the Division of Medical Services Dental Care Unit contact information.
- E. Prophylaxis and fluoride must be indicated on the same line of the form using code D1201 for patients age 9 and under and D1205 for patients ages 10 through 20. If prophylaxis and fluoride are submitted as separate procedures, they will be combined on the claim before processing them for payment.
- F. Indicate the tooth number when submitting claims for code D0220 and D0230, intraoral single film. When a complete series is made, providers must use code D0210 rather than indicating each tooth on a separate line.
- G. Upper and lower full dentures must be billed on a separate line, using the appropriate code for upper or lower dentures.
- H. The ADA claim form on which the treatment plan was submitted to obtain prior authorization may be used to submit the claim for payment. If this is done, only the Request for Payment portion of the form is to be completed. If not, a new form may be used with the prior authorization control number indicated in Field 9 of the claim form. If a new form is used, the patient and provider data and the request for payment sections must be completed.
- I. Combine all four quadrants times 2, 3 or 4 when using procedure codes 04210 (gingivectomy or gingivoplasty-per quadrant) and D4220 (gingival curettage, by report).
- J. Use procedure code D1110 for prophylaxis-adolescent, ages 10 through 20, and procedure code D1120 for prophylaxis-child, ages 0 through 9.
